

# Factory & Production Overview - Ayesha EPS

About Ayesha EPS Insulation Limited:

Ayesha EPS is a leading manufacturer of EPS (Expanded Polystyrene) insulation products in Bangladesh, specializing in sustainable, energy-efficient solutions for industrial, construction, packaging, and customized applications.

Factory Location:

Narayanganj Industrial Zone, Bangladesh

Production Facility Capabilities:

- Total Area: Over 30,000 sq. ft.
- Power Backup: Full generator support to ensure uninterrupted production
- Machinery: Advanced block molding and shape molding machines
- Daily Output: 2,000+ EPS units across various sizes and densities

Manufacturing Lines:

1. EPS Battery Cover Boxes
2. EPS AC Covers & TV Covers
3. EPS Fridge & Incubator Boxes
4. EPS Ceiling & Insulation Panels
5. Custom-molded Packaging Products

Quality Control:

- ISO-compliant production standards

- Batch testing for density, insulation, and compression strength
- Visual inspection for each product before packaging

#### Sustainability:

- CFC & HCFC free manufacturing process
- 100% recyclable EPS material
- Waste material is reused wherever possible

#### Production Capacity:

- Monthly Capacity: 60,000+ units
- High-volume contract production available
- Capacity scaling possible for large government or commercial orders

#### Workforce:

- Skilled engineers and technicians
- Dedicated R&D and quality assurance teams
